Description:

used hand full of times and works great especially if you need to swap seasonal set of tires with different TPMS sensor IDs. allows you to program and set new TPMS IDs to the car to relearn and also pull IDs that's in the car.

comes with everything from the original package and original box (not shown in photo)

Unit

obd cable

USB cable

CD software (also available online and will automatically update your the unit when installed/plugged into your computer.

Description from web pages.

The QuickSet downloads the IDs that are stored in your vehicle's ECU. The PC based software allows you to enter the IDs from your alternate set of tires into the QuickSet. You must have your alternate set of IDs available (from a TPMS decoder tool such as the ATEQ VT30, provided by a garage, an invoice or on the sensor itself). Once the QuickSet is updated with the alternate set of IDs, you are able to upload these to your vehicle's ECU through the OBDII port. Warning: This product can expose you to chemicals which is [are] known to the State of California to cause cancer and birth defects or other reproductive harm.

Features & details

TURN OFF YOUR TPMS LIGHT Will reset the TPMS system on most import vehicles. Super simple to use!

RESET YOUR TPMS SYSTEM WHEN SWAPPING WHEELS OR ROTATING You just need this tool and a computer! Simple to use and future proof!

FIX YOUR TPMS LIGHT WHEN PUTTING IN NEW SENSORS This easy-to-use relearn tool will transfer new TPMS sensor IDs into your vehicle's ECU. Stores two sets of wheels for easy wheel swapping (i.e. Summer and Winter sets).

Works with: Acura, Honda, Hyundai, Infiniti, Lexus, Mitsubishi, Nissan, Pontiac, Scion, Subaru, Suzuki, and Toyota. Contact Import Auto Performance to check compatibility for your specific model and year! Some models may require a trigger/activation tool for a full reset.

CONTACT IMPORT AUTO PERFORMANCE IF YOU HAVE ANY QUESTIONS! We are here to help! Free upgrades when purchased from Import Auto Perfo
